

# Cookbook of Activities for Driver Education

MT CURRICULUM GUIDE

M 8

Objective: Simulated parallel parking

## INGREDIENTS

Large cardboard boxes with straps (cars)  
Simulated Steering Wheel  
Tape to represent the curb

Desks may be substituted for cardboard boxes

Contributed by:  
Patrick Tamura

## INSTRUCTIONS

Students are in their “cars”.

When asked to parallel park, students will follow the procedures to parallel park between two other “cars”.

Practice Parking procedures

1. Signal, mirror checks and blind spot check
2. Stop at the point where the front of their “car” is along side the parked “car”
3. Students are to turn the steering wheel to the right while backing toward the curb
4. When the student is at about 45 degree angle, turn the wheel back to the left
5. Position the “car” evenly between the other parked cars

MT CURRICULUM GUIDE

M 8

Objective: Evaluate turnabout locations

## INGREDIENTS

Photos, slides, or videos of a variety of locations where a turnabout could be made.

Show safe and unsafe locations.

## INSTRUCTIONS

This can be a small group activity by duplicating sets for each group, or presenting the situations to the whole class.

Students evaluate each roadway condition and determine if it is a safe or unsafe location to make a turnabout.

Have students determine which type of turnabout would be best for conditions.
